

# BED BUG PROOF! Mattress Protector

**WARRANTY PROTECTION**  
 • 100% AND BLENDS SPILLS  
 • MOODY FIBRE STAINS  
 • FULL REPLACEMENT WARRANTY ON MATTRESS AND MATTRESS PAD

**10 YEAR**

**Bed Bug Proof! Complete Encasement Mattress Protector**  
 Creating a Healthy, Allergy-Free Sleep Environment

**Here's how it works:**

- Lab tested and proven to stop bed bugs from infesting your new mattress investment
- Designed with a unique locking zipper, the Bed Bug Proof! encasement covers all sides of your mattress to ensure 100% dust mite and allergen protection
- Breathable, stretch knit fabric disperses liquid pooling and allows cool air flow for complete sleeping comfort, while maintaining a 100% waterproof barrier against spills and stains
- Cool and quiet "invisible" sleeping surface - unlike vinyl-based products that radiate under the sheets
- Machine washable in hot water, allowing for removal of residual allergens build up, while protective remains
- Certified as a Class 1 Medical Device by the FDA
- Made in the USA

Diagram labels: Escaping Moisture Vapor, Stretch Knit, Unique Membrane, Just Mites and Bed Bugs Cannot Pass Through.

## Waterproof, Allergy Relief...

### Plus Bed Bug-Proof! Mattress Protector

- Lab tested and proven to stop bed bugs from infesting your mattress!
- Classified as a Class 1 Medical Device

- Stretch knit surface creates a breathable waterproof barrier to protect mattress from liquids and stains AND allows fresh air flow for a cool, comfortable sleep
- Also protects against dust mites and allergens and is backed by our mattress and protector full replacement warranty!
- Machine Wash & Dry – protection remains!
- 10 Year Warranty
- MADE IN THE USA

**Bed Bugs or Cimex lectularius are becoming an epidemic, again!** Since the government ban of DDT, which was used to eradicate this pest in the 1980's, bed bugs have run rampant. Our unique fabric has been lab tested to be bite proof and entry proof. Our exclusive zipper lock system combined with the impermeable fabric creates a block to bed bugs getting in or out of your mattress.

**Zipper Lock System**

**Barrier Fabric**

Moisture breaks through

Bed Bugs and allergens can't penetrate membrane
